

# IMPORTANT CONSTRUCTION MESSAGE

**Construction is ramping up on the hospital campus to progress Stage 2 of the Nepean Redevelopment.**

Increased construction on campus means there will be some challenging times ahead due to the hospital's close proximity to the site.

To minimise the impact, **regular noise, dust and vibration monitoring** will occur to ensure construction stays within the limits set by SafeWork NSW.

To help, there will also be a **"reduced noise period"** between **12pm and 2pm** from Monday to Friday.

Thank you for your support and patience as we progress this important hospital expansion and upgrade.

If you have any questions or concerns, contact our project team by scanning the QR code.
